

FLAMENCO PROJECT VALIDATION WORKSHOP 26 June 2023

Results highlights

Stakeholders from European Countries - Austria, Czech Republic, Denmark, Portugal, Romania - participated in the FLAMENCO - Results Validation Workshop, organised on June 26, 2023.

To proceed to the validation, participants have responded and discussed the following questions:

- Which aspects of the FLAMENCO Results regarding the Sectoral Collaboration you think were the most important?
- How relevant and important are the FLAMENCO current results for the sectoral collaboration in your opinion?
- Would you recommend other sources, approaches, collaboration, improvement or information regarding the FLAMENCO presentation?

They have underlined and agreed on the following aspects:

The most important aspects of the FLAMENCO results regarding the sectoral collaboration are considered to be: the methodology, the networking, the framework of the collaboration.

Participants ranked the importance of the FLAMENCO results for the sectoral collaboration as:

- very important - 85%
- Important - 15%

Note: no participant considered the results as being just relevant or not relevant at all.

Among the recommendations offered by Participants regarding approached of collaboration there were:

- collaboration with regions
- direct contact with OEMs
- Cluster alliances
- Study Visits
- Conference cooperation
- University collaboration
- ASA Working Groups
- Networking
